

xpressions[®] CONNEX[™]

Xpressions@CONNEX[™] transforms the Xpressions@SNAP[™] pop-up into an exciting modular display system perfect for trade show or event environments. The key to unlocking your creativity is a simple innovation to the Xpressions@SNAP[™] frame: a simple clip on the hub and the addition of a trapezoid and square connecting shelf along with the original rectangular shelf.

Connecting the frames at different angles or in straight lines adds yet another dimension to the Xpressions@ exhibit. Dynamic connecting skins are used in combination with square, trapezoid or rectangular connecting shelves to create dramatic inline spaces, concave and convex configurations. Even create octagon islands for events.
